Hi everyone,

As a follow up to the meeting today, this meeting is being scheduled to check in on the status of addressing comments received during the internal technical review on the U&O FIP. As discussed today, please try to have any comments addressed in advance of this meeting, however, with vacation schedules, there may be some lingering comments at the time of this meeting that will still need to be addressed. As always, if you run into any road blocks, please alerts us as soon as possible, no need to wait until this meeting to raise issues.

Call in Code: **Ex. 6 - Personal Privacy**

Thanks again for all of your efforts on this FIP!

Take care,
Dee
